About this report

In order to demonstrate all our actions to our stakeholders in a transparent and systematic way, Grecootel Meli Palace is introducing its annual Sustainability Report. The objective of this Report is to disclose our sustainability performance and approach with respect to the society, the environment, human resources and culture. This is the fifth public sustainability report of Grecootel Meli Palace and covers 2019 season (reporting periods are from opening to the closing day).

The COVID-19 global pandemic posed an existential threat not just to the hospitality and travel industries, but also to our very way of life. The unprecedented disruption that was caused to our business operations in 2020 required the Group to take exceptional measures and keep the Grecootel Meli Palace closed for 2020. This is the reason why we are presenting data for 2019. In 2020, the hotel suffered major damage due to a severe storm.

Sustainability
Program*

Sustainability Program

WORKING TOWARDS A MORE SUSTAINABLE WORLD

In 1992, Grecotel became the first Mediterranean hotel group to undertake eco-audits in its hotels according to EU standards and formed an Environment and Culture Department.

Grecotel Sustainability program "**GRECOTEL ECO**" is one of the basic operating standards for all Hotels of the Group. It contains key areas aimed at protecting the Environment, highlighting local communities and strengthening the economy.

The basic ideology of the program is the "**Think global Act Local**".

THE GLOBAL GOALS

How we manage sustainability

Environmental Impact

GRECOTEL, BEING ONE WITH NATURE

GRECOTEL is actively contributing to the protection of Greek ecosystems, as we have realized that our success is largely determined by our ability to function and expand in a sustainable manner.

Being Greece's largest hotel group and a trendsetter in the Mediterranean region, we believe that we have a vital duty to protect our communities and the environment so that our hotels and resorts, located in a wide range of destinations, remain vibrant and resilient for future generations of conscious visitors.

Fostering long-term partnerships with a variety of entities, including other businesses, government agencies, non-profit organizations, multilateral organizations, and so on.

PEOPLE

Employees

Promoting equal opportunity.

Community

Youth employment - Investing in training and career support for young people.

Hotels with a heart - Grecootel potential as a hotel chain is being used to provide lodging for people who need help.

PLANET

Climate Change

The fight against climate change lies at the heart of Grecootel strategic planning and risk management.

Water and Energy

Water and energy conservation is a key part of the Grecootel Stainable Program.

Waste Management and the Circular Economy

Working with suppliers to develop circular economy possibilities and synergies.

Zero Carbon Emissions

The drastic reduction of carbon emissions presents an urgent need for our economy and climate. For this reason, at GRECOTEL, as leaders in hospitality in Greece and Mediterranean, we recognize our duty not only to reduce our carbon footprint, but also to influence the hospitality industry towards a net zero economy.

Our primary source of emissions is from the operation of our hotel (Grecotel Meli Palace). Our employees were encouraged to use operational best practices such as partial building shutdowns, variable plant load operation, and strengthened building controls to save energy and carbon emissions when occupancy was low. At Grecotel Meli Palace we encourage suppliers to set goals around reducing their environmental and social impact.

THERE IS NO PLANET B

*Fighting
Climate Change*

We recognize climate change to be a critical threat to our planet, our communities and our business, and we've made combatting it a top business priority.

Environmental Program

GrecoTel Environmental Program was used as an example in the publication Agenda 21 for the Global Travel & Tourism Industry. It includes activities inside and outside the hotels and it focuses in **4 Key Performance Indicators (KPI)**:

01. Energy

02. Water

03. Waste & Recycling

04. Chemicals

2019

Energy

1.131.156 Kwh

Efficient use

Energy consumption is the main contributor to direct and indirect GHG emissions which affect the climate change. By creating the necessary infrastructure and using the latest available technology in energy management, we endeavor to reduce our energy consumption and maximize the use of renewable energy. Advanced materials and systems are installed in the buildings of o to reduce energy consumption. These include:

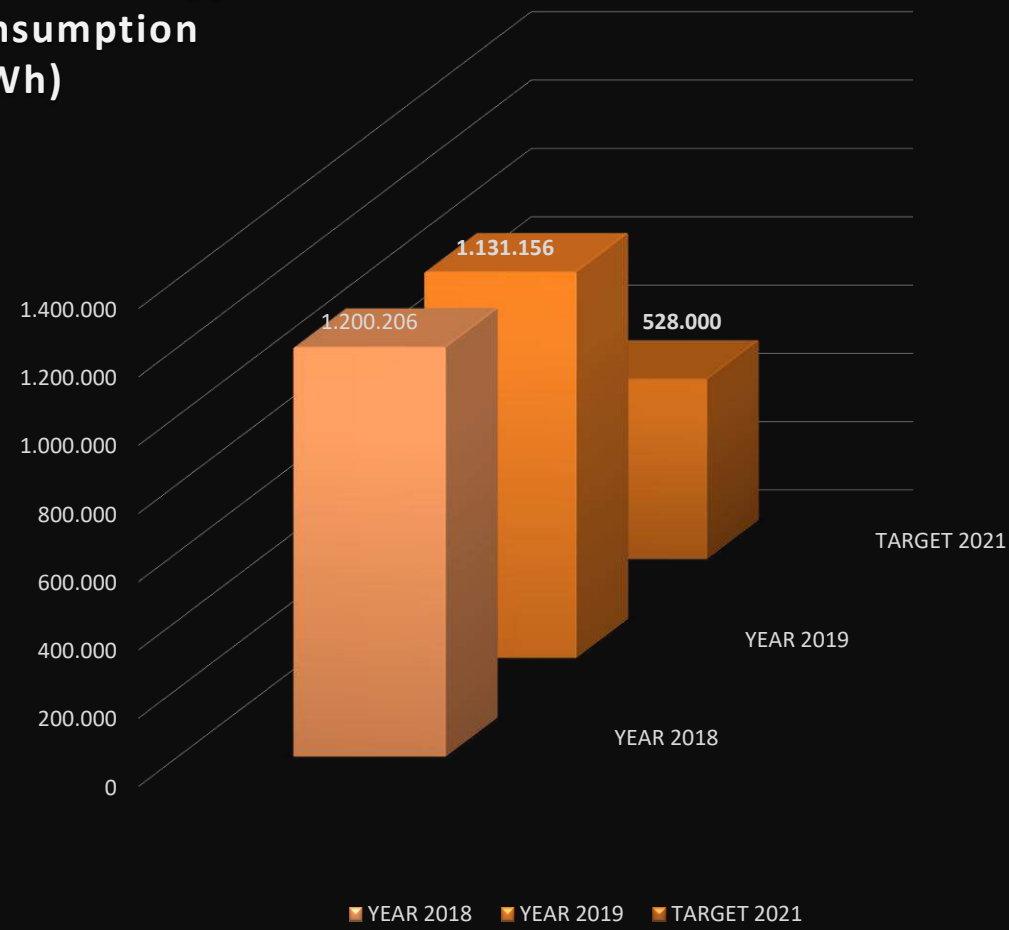

- Energy-efficient window panels.
- A high-quality, external wall insulation system that significantly reduces energy losses by wrapping the building in a thermally resistant envelope.
- Low energy technology lighting.
- Electronic lighting ballasts.
- Central lighting control systems.

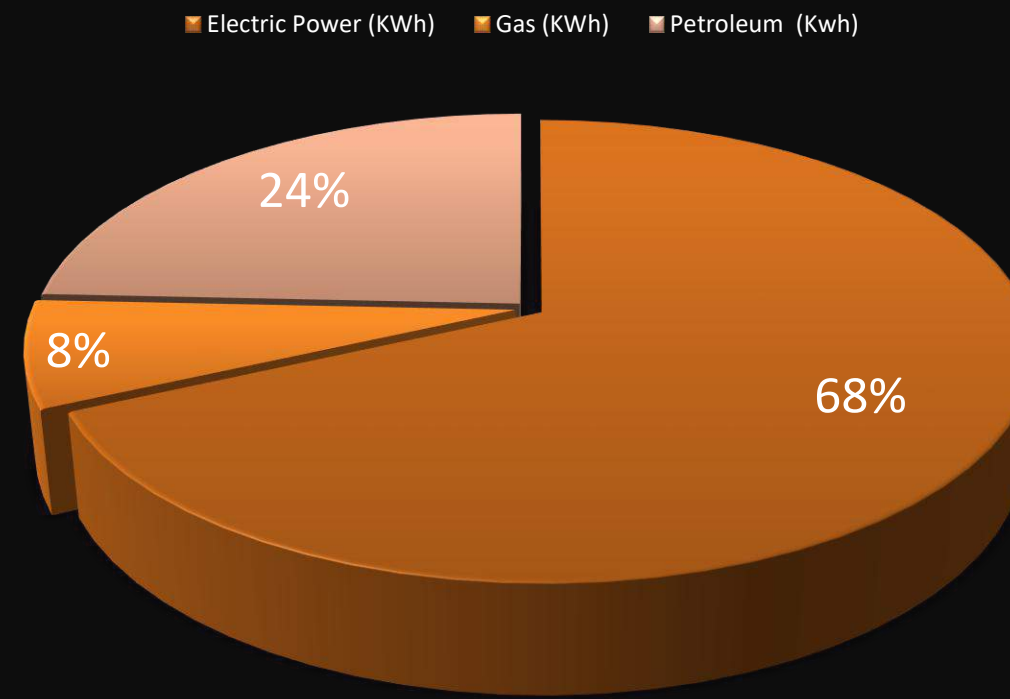

OUR EFFORTS
CONTRIBUTE TO
THE SUSTAINABLE
DEVELOPMENT
GOALS:

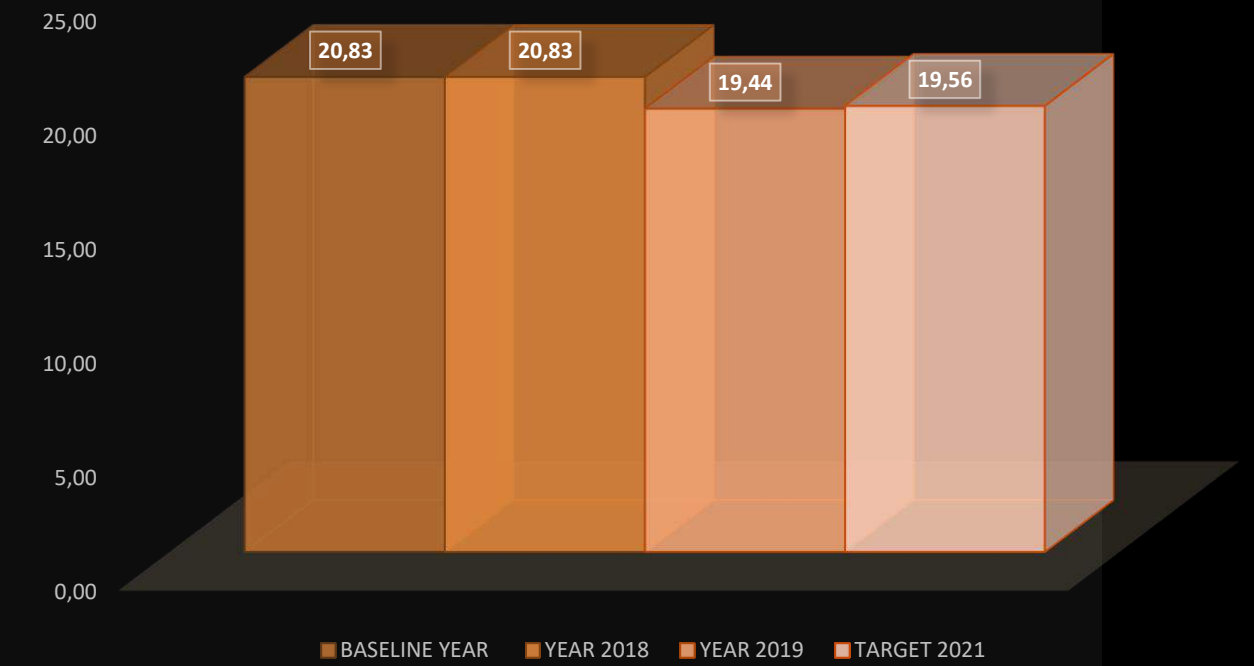

Annual Energy consumption (KWh)

Energy Consumption per Source

Annual Energy consumption per accommodation

Energy Reduction

- Hotel operations are aligned with best practice energy management techniques and technology.
- The Greotel Meli Palace Green goal is to improve the energy efficiency of the buildings and minimize energy consumption year after year.
- The hotel passed an energy audit, and the study was submitted to the Ministry of the Environment.
- Greotel Meli Palace continues to train all staff in energy and carbon management in order to decrease energy use.

In 2021 the lodging is anticipated to function less days and with less rooms.

Energy Consumption

Based on the average energy usage (gas consumption in liters per guest and energy consumption in kWh per night), there are three categories of hotels in Greece, according to applicable legislation and statistics:

- A hotel is considered an energy “diamond” for average consumption of up to 0.30 liters of gas per guest and up to 16 kWh of average electricity consumption per guest.
- Very good to excellent for average energy consumption of up to 0.70 liters of gas per guest and 24 kWh of average electricity consumption per guest.
- From 0.70 liters to 0.90 liters of average gas per guest and 25 - 30 kWh of average electricity consumption per guest, the hotel is considered energy-intensive and requires energy saving interventions.

MONTHLY ENERGY CONSUMPTION

In 2020, Greotel Meli Palace's energy consumption was:

0,70
liters

of average gas
consumption per guest

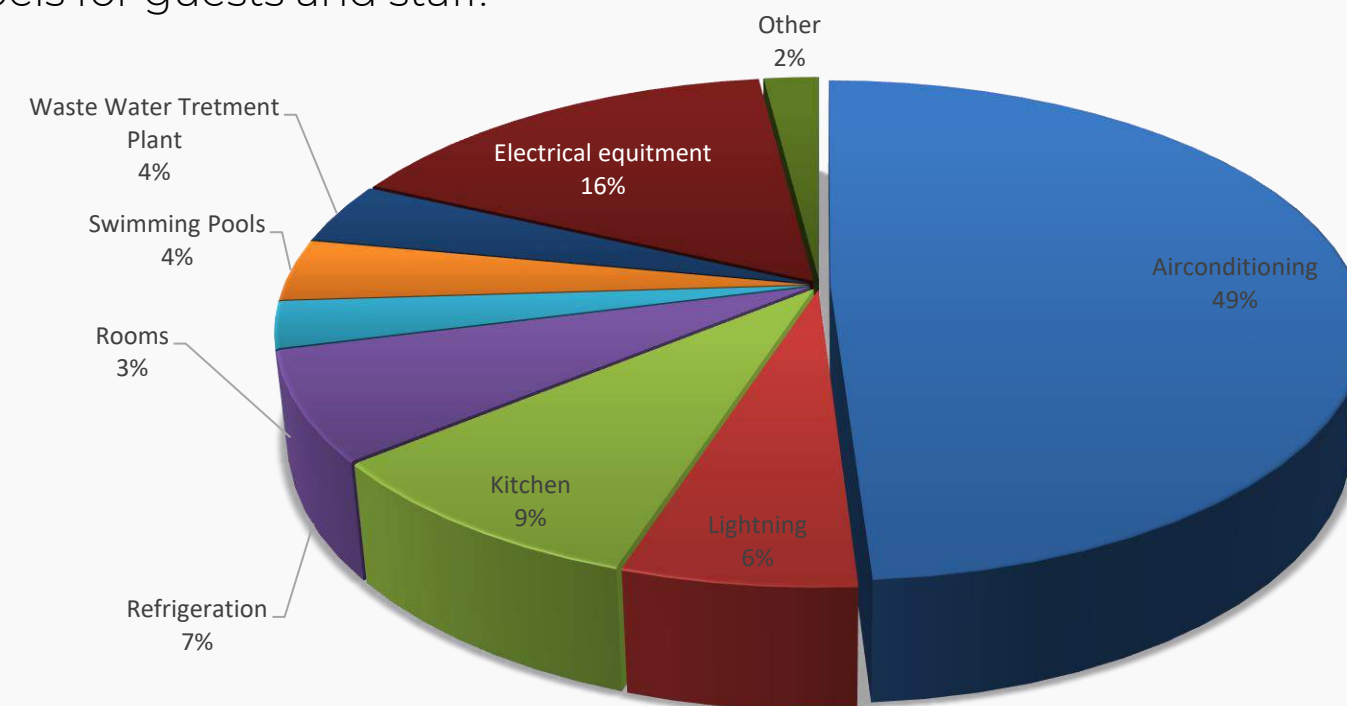

19,44
kWh

of average electricity
consumption per guest.

Energy Assessment

Grecotel Meli Palace has proceeded with investments, aiming to the efficient use of energy. Specifically:

- Obtain increased efficiency through proper maintenance of the Cooling system.
- Use natural cooling techniques.
- Use Night ventilation techniques, ceiling fans.
- Use super metal halide fluorescent lamps.
- Use electronic fluorescent ballasts.
- Electric magnetic keycards for the automatic interruption of lighting and electrical appliances.
- Use improved luminaries.
- Motion sensors, timing devices.
- Use daylight effectively within the building.
- Public awareness and communication.
- Use high-efficiency equipment when replacing old equipment throughout the hotels.
- Use Solar panels in order to heat the water.
- Provide information and warning labels for guests and staff.

Water Reduction

ENVIROMENTAL RESPONSIBILITY

Water scarcity is a recognized global problem, with demand for water projected to exceed supply by 40% by 2030. At Greotel Meli Palacewe recognize the value that water has for both human life and nature. The Greotel Sustainability Program places great emphasis on water conservation, actively demonstrating this way our commitment to environmental protection through the conservation of both aquatic and marine ecosystems.

OUR EFFORTS CONTRIBUTE TO THE SUSTAINABLE DEVELOPMENT GOALS:

GREOTEL
MARINE PALACE
& AQUA PARK

Water

The implementation of a sustainable tourism development is directly linked with the availability of water resources.

We continuous efforts are made to reduce water needs. Grecotel Meli Palaces following all the national and international legislation ensure that the source of the water does not affect the local supply or local environment in any way.

All wastewater, including rainwater are disposed of in a controlled way in order to protect areas lying outside the boundaries of a property from becoming contaminated by water, chemicals, pollutants, effluent and other materials.

Water Highlights for 2019

Our water use increased in 2019 compared to the previous year due to the new operations standards. Grecotel Meli Palace's water use per guest was 0,60 m³ in 2018 and 0,63 m³ in 2019.

100%

of the rooms have water reduction filters

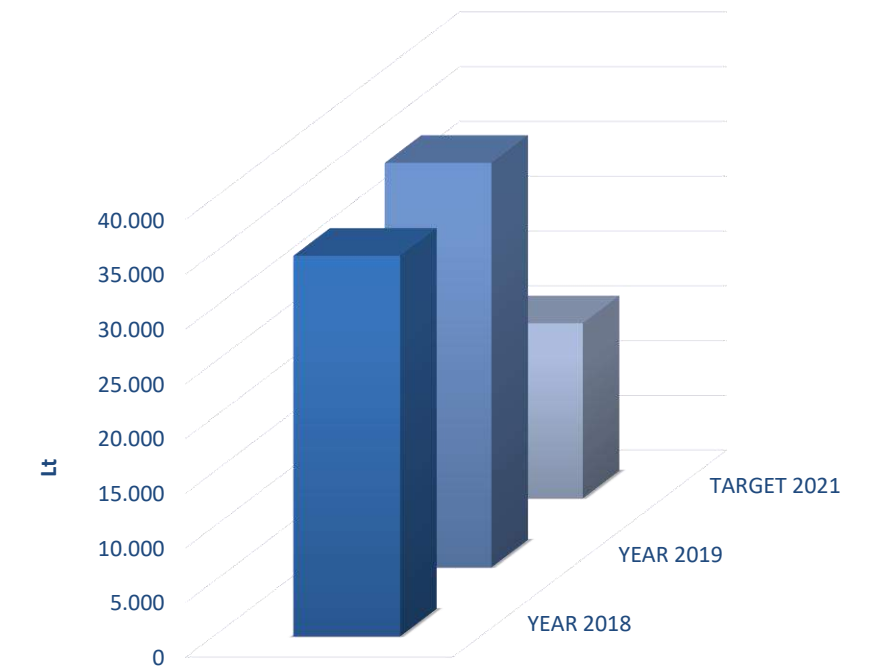

The quality of water is monitored in cooperation with accredited laboratories.

WATER - SAVING MEASURES

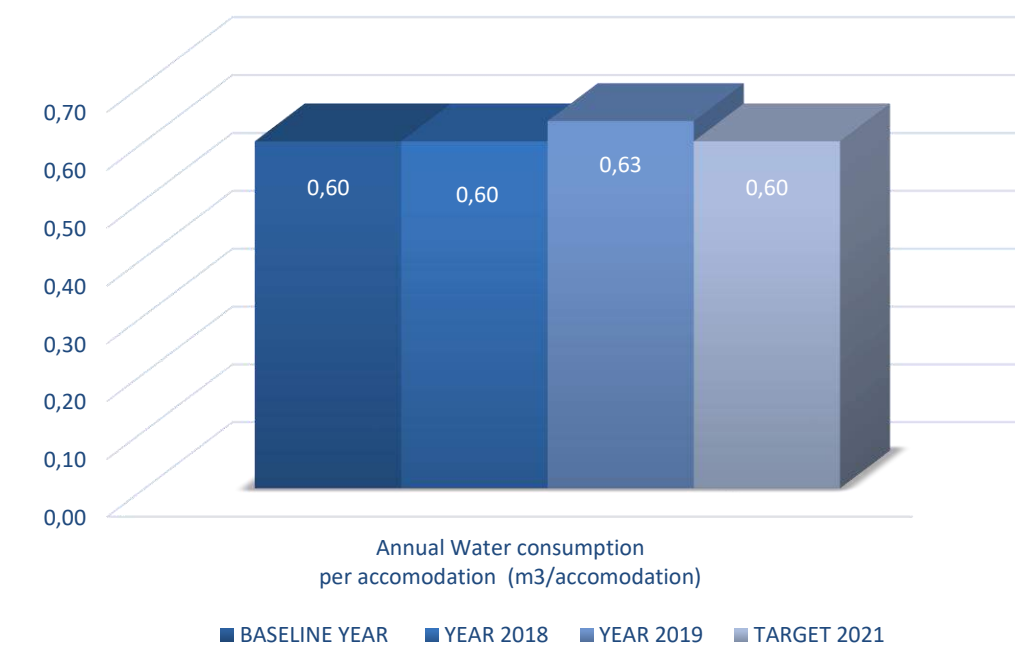

Below you can see the most important actions taken in order to reduce the Water consumption:

- Linen & Towel policy.
- Water reduction filters to all taps of the hotel.
- Double tank toilet flushes.
- Regular maintenance to prevent leaks.
- Automatic night watering the green areas and the organic fields of the hotel.
- Application of drip irrigation systems and underground irrigation systems with reduced water evaporation.
- Run the washing machine only with a full load.
- Desalination/reverse osmosis and filtration units.
- Taps in kitchens have a maximum flow of 10 liters per/min.
- We give the opportunity to our guests to reduce the water consumption (Water reduction info material in all rooms).
- We communicate and educate the management's commitment for water reduction and goals to all employees.

Annual Water Consumption

Monthly Water Consumption

A series of water-saving measures have been applied, based on best available practices that focus on consumption monitoring (e.g. leak control, improved efficiency), including educational programs for visitors.

Water Assessment

The first step was to start measuring water consumption and set some tangible targets. It's vital to know our start point (baseline year) and find out how much water is consumed and how it is divided among the various uses such as in the guest rooms and common areas.

The main water consuming activities in a hotel are:

- Guest Rooms (59%)
- Kitchen (11%)
- Swimming Pools (4%)
- Gardens (17,5%)
- Restrooms & public toilets (2%)
- Rest (6%)

Chemical Use

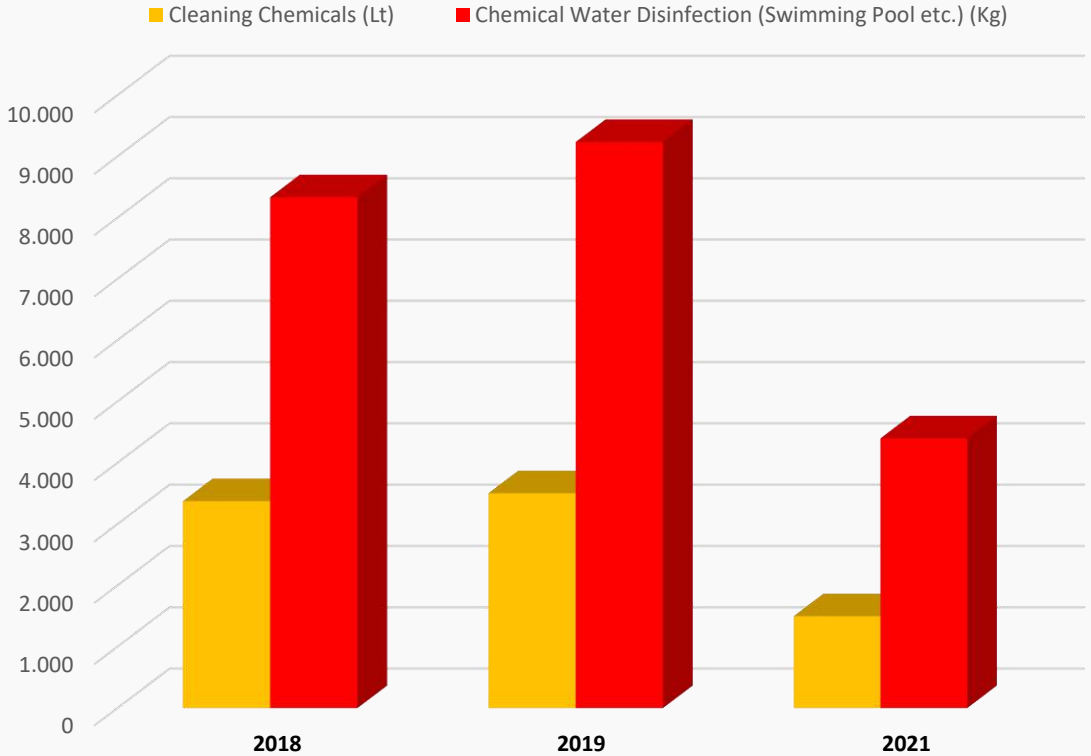

USE OF ENVIRONMENTALLY FRIENDLY CHEMICALS

Driven by a high sense of environmental awareness, Grecootel Meli Palace chooses to use certified cleaners and chemicals, with environmentally friendly specifications regarding both their packaging and composition. This way we achieve a great balance of cleaning effectiveness along with environmental protection. Furthermore, we apply a new model of alternative gardening, avoiding the use of chemical fertilizers and pesticides, further emphasizing the statement that the safety of our guests, our partners and the natural environment is a top priority for us.

All chemicals used are evaluated in terms of sustainability criteria and are applied with dosage systems in order to ensure efficient usage.

Consumption is **monitored on a monthly basis** and is measured with a guest per night indicator.

Frequent staff training for proper use.

Waste Management

Waste management is an integral part of our waste management policy, as **Grecotel** actively contributes to a more circular economy. **Aiming to become a Zero Waste company**, we have developed and implement an integrated waste management strategy that results to waste elimination through waste cross utilization and recycling.

We ensure that all operations and activities at Grecotel Meli Palaceare fully comply with all current national waste management regulations. At every stage of our operation, we are devoted to reducing waste output by applying reduction, training, and recycling approaches.

OUR EFFORTS CONTRIBUTE TO THE SUSTAINABLE DEVELOPMENT GOALS:

WASTE MANAGEMENT SYSTEM

PREVENTION

Disposable products and unnecessary packaging are avoided to be bought. Priority is given to more durable/long-lasting products. Purchase of recyclable goods.

REDUCE

At Grecotel, we're committed to helping the world end the ocean plastic crisis. Most effective ways to **reduce waste is by reusing everyday items**. In each room we provide our guests with a reusable canvas bag.

REUSE

We are **donating materials** to churches and to local community. We reuse paper that has been printed only on one side. We also **upcycle items** that no longer serve their original purpose into DIY crafts.

RECYCLE

Recycling of glass, cardboard, paper, cooking oil, soap, metal, aluminum, batteries, medicines and electric utilities, **through private special waste contractors**. Recycling of plastic, paper, aluminum and textiles, through the **municipality waste system**. **Composting** of vegetables, fruits, grass cuttings and garden waste within the company's grounds.

MONITORING

Performing of **regular monitoring** of waste in order to ensure that the waste minimization strategy results to **reduced amounts of waste** disposal each month.

PROMOTE GUESTS PARTICIPATION

Customers can help the Waste management plan by keep saving our environment by always using the recycle bins

PROMOTE EMPLOYEES PARTICIPATION

Through training and support, ensure that all staff are aware of their responsibilities under Grecootel environmental policy and how compliance can be achieved and maintained.

- Employees are required to:
- become familiar with the type of waste and their appropriate handling and disposal methods and
 - adopt the procedures for waste separation using the correct color-coded bags and bins.

WASTE MANAGEMENT MEASURES

- In Grecootel we separate waste according to local authority guidance.
- Waste prevention in all departments and throughout supply chain.
- All quantities are reported annually.
- The hotel's liquid waste is treated in the wastewater treatment plant.
- Chemical and microbiological analyses of water are conducted by laboratory.
- All the refrigerant substances used in the hotel are ozone friendly.

Recycling streams for Grecootel Meli Palace:

	2019	kg	Present
Cooked Oil:		510	1%
Glass:		15.830	32%
Plastic:		13.600	27%
Paper/Packaging:		18.542	37%
Metal:		1.260	3
Batteries:		21	0,6%

63%
waste diversion rate from landfills (non-hazardous waste)

FOOD WASTE

One third of all food produced is wasted each year. This issue is a priority for our sustainability program.

Fighting Food Waste in Grecootel Meli Palace:

- Food measurements / analysis.
- Informing visitors and staff.
- Actions were taken to reduce waste.

Our hotels are taking primary steps to avoid food waste at source by reducing overproduction through better planning, storage and handling. We also take secondary steps to recycle unavoidable food waste through energy recovery and composting.

Plastic Free

LIFE FREE of PLASTIC

With an increased sense of environmental responsibility and the desire to contribute towards a more sustainable travel experience, Greotel Meli Palace implements a plastic-free hotels program, with the aim to reduce the use of all plastics, while promoting the use of reusable, recyclable and more environmentally friendly materials.

Every year plastic audits are conducted in order to identify areas for improvement. Waste prevention in all departments and throughout the supply chain. Greotel introduced the plastic initiative which aims to ban the use of single used plastics (EU list) and reuse or recycle all plastic packaging.

Hazardous Substances Usage

The environment is totally affected by the hazardous substances. Greccotel Meli Palace keeps a list of all hazardous substances used (e.g. chemicals, hazardous materials, light bulbs, batteries, ink/toner cartridges etc.).

All hazardous substances are used safely according to the manufacturer instructions and are stored safely, in line with national and international standards. Chemical are disposed safely, in line with national and international standards and collected by a fully licensed contractors.

The usage of chemicals is limited and only from special trained staff members. All the employees receive an annual training regarding the correct use of the chemicals (quantity, required Personal protective equipment) and the possible harmful effects.

Sustainable Gastronomy

By applying new practices for a more sustainable gastronomy, we are committed to reducing both food waste and the raw materials used to produce them. We focus on developing a culture based on sustainable practices through effective staff training and awareness campaigns, aiming to deliver sustainable gastronomy menus that combine authentic flavors with respect for the environment.

For decades, GrecoTel was the first to introduce authentic high-quality organic products in the restaurants of its hotels, establishing this way a powerful link with the local agricultural production.

Organic meals

HEALTHY & SUSTAINABLE NUTRITION

Sustainable nutrition is key to achieving the optimal development and holistic health for people, through the support and promotion of their physical, mental and social well-being.

At GrecoTel Meli Palace we emphasize both at reducing the risks associated with nutrition, while at the same time actively supporting the conservation of biodiversity and holistic health, of the present and future generations.

GrecoTel Meli Place's guests have the exclusivity to taste organic products and meals in NISSI Restaurant, which in 2019 offered 5.400 meals of high nutritional value and quality.

Generally, its purchases' rates for the year 2019 were:

- Crete 19%
- Greece: 65%
- Import: 16%

Which means that it has contributed to the national and local economies with 150.000 euros.

From Farm to Fork

High quality food can go hand in hand with limited impacts to the environment. At Grecotel Meli Palace we are committed to helping our guests acquire healthier eating habits while at the same time reducing the impact that the food production activities have on the environment.

SUSTAINABLE SUPPLY CHAIN

The integration of the most important environmental and social parameters in our supply chain is one of the most crucial pillars of sustainability. For this purpose, Grecotel Meli Palace evaluates its partners against quality and corporate responsibility criteria, and sources certified sustainable products, achieving this way the development of sustainable and responsible local supply chains.

In any negotiation with the supplying company, we inform them about our environmental policy, and we ask them to inform us about the various environmental-friendly products on offer.

We give priority to products from the local markets, if they meet the requirements and basic needs of the company.

Conservation of Biodiversity

At Greotel Meli Palace, we have developed partnerships with a series of organizations (e.g. with NGOs like ARCHELON, WWF), aiming to protect and preserve ecosystems, while also raising awareness between our guests and employees.

Experience & Activities

Also, eco-learning programs for guests, available to children at the Grecoland Club, give younger guests the opportunity to learn about the local biodiversity, including turtles, birds and flowers, as well as local customs and products. In the weekly program, there is a blue day and a green day.

Animal Protection

Animal welfare is included in our discussion of sustainability because of the fundamental importance of respecting other living creatures.

We avoid putting further pressure on endangered species or supporting environmentally harmful production.

Garden

To plant a garden is to believe to tomorrow.

Creta's natural beauty lies in a richness of velvet green cypress trees, silver olive groves and mountainous skylines that plunge into the bluest of waters.

GrecoTel Meli Palace implements garden programs:

- a new model of alternative hotel gardening, avoiding the use of chemical fertilizers and pesticides,
- we plant Mediterranean and local plants in our gardens,
- automatic irrigation system in the evening,
- treated wastewater is used for irrigation,
- we apply composting.

103 guests participated in Eco – learning programs.

Grecotel's Agreco farm opened its gates in 2001, near Adele village, Crete. This privately owned 40,000-sq estate is an innovative display of environmentally friendly methods for traditional and modern cultivation and breeding.

The idea behind, it is to educate local farmers and Grecotel visitors about the traditional ways of production and the original Cretan way of living.

The overall objective is to give visitors a first-hand experience of the traditional production methods of traditional Greek products, namely olive oil, olives, honey, wine, jams, local herbs.

Agreco produces ecological products which meet all EU standards and are certified with the ISO22000:05, thereby demonstrating that cultivation is possible without the use of chemicals that ultimately pollute the soil, water and our own health.

Agreco was created by Nikos Daskalantonakis, founder of N. Daskalantonakis-Grecotel Group, as part of his vision of offering guests wholesome, farm-fresh produce while supporting sustainable development of rural areas.

Be Farmer for a day...

Agreco forms a successful sustainability case on its own that:

- successfully interconnects primary sector with tourism
- continues Cretan tradition
- is a unique example of Cretan hospitality
- connects with participation and disseminates at local events, school visits, conferences etc.
- supports small local producers
- supports local community by being a significant employer
- represents at its best and develops Crete's unique culture, history
- shows the local cuisine and strengthens the Cretan gastronomic identity

At Agreco a guest can experience the unique and special program “Be a Farmer for a day” and the “Young Farmers” for the little ones with seasonal activities such as:

- Learn to cook and prepare stuffed vegetables (tomatoes, peppers, zucchini).
- Make farmhouse bread and bake it in the wood-burning oven. Try it fresh from the oven, dipped in virgin olive oil.
- Pick vine leaves to make the famous Greek dolmadakia.
- Pick fresh vegetables from the organic gardens to enjoy later.
- Collect hen eggs to make village-style scrambled eggs.
- Milk the goats.
- Help shearing the sheep.
- Taste the fresh milk and see how local cheese is made.
- Make Cretan cheese pies.

... and at the end of the day, when guests brief farming career comes to an end, guests can sit back at the farm's Taverna with dramatic views over vineyards, olive groves and the sparkling Aegean Sea and enjoy a healthy and nutritious Cretan menu.

Only fresh, organic farm produce is used in the menu and the preparation is done entirely in the farm kitchens.

SUSTAINABLE ARCHITECTURE & ECODESIGN

Aiming at the preservation and protection of our natural heritage, GRECOTEL focuses on integrating sustainable architecture into its hotels, so that they are fully harmonized with the landscape. The renovated "third generation" hotel (such as Grecootel Meli Palace) complexes follow the most modern and sustainable architectural trends, whilst maintaining each destination's special local character, always in harmony and with respect for the local history and people. The idea is that building, landscape and nature merge together causing as less impact on the environment as possible.

Food of High Quality and Value

NUTRITION, HEALTH AND WELL – BEING

FOOD QUALITY

Lesser first day kind god us earth. The With the quality of raw materials being a non-negotiable value for us we reduce unnecessary food waste, by also communicating with clarity our expectations to our suppliers. We work with them to formulate requirements for quality, traceability, and environmental responsibility, while ensuring that products and materials are produced with the right working conditions.

FOOD SAFETY

We are deeply committed to the highest standards regarding the key elements of the food chain such as quality, traceability, but also food safety. This enables us to offer our guests food of high nutritional value produced in a sustainable and safe way, directly from production to consumption.

Having as our primary goal to improve our society's quality of life, we take initiatives and carry out numerous actions with significant social impact.

One of those streams may well be our empowering collaborations with social/environmental organizations and accredited NGOs.

Social Responsibility

Local Community

Grecotel Meli Palace growth is directly linked to the prosperity of the destination. Contributing significantly to the local economy and supporting regional development is a key priority.

- We effectively support the needs of the local community and implement initiatives accordingly
- Our impact on the local and wider community is understood and nurtured.
- Dialogue with local communities is encouraged for mutual benefit.

Sustainable tourism creates the necessary momentum for the continuous, inclusive and sustainable economic development of Peloponnese.

Sustainable tourism creates the necessary momentum for the continuous, inclusive and sustainable economic development of Peloponnese.

It creates links with agriculture and service providing sectors and stimulates the development of key infrastructure (road construction, upgrade of airport facilities) and the provision of financial services from which the local economy as a whole can benefit.

The revenue generated by the increase in tourist arrivals in the region has a positive direct impact on a wide range of economic sectors incorporated in the tourism value chain.

The positive impact from tourism growth on income and employment in the local community is multiplied, creating a vibrant local economy.

The local people can use the facilities of the promises with specific cost / charge provided the availability of the resources.

Human Rights

We support and respect the protection of internationally proclaimed human rights. All employees are responsible for complying with social policy and for ensuring that the standards of behavior required by the company are observed.

We are continually training our staff on human rights and child protection, so that they understand the role they play in delivering our objectives. Over the last few years, we have zero incidents reported.

Grecotel Meli Palace policies:

- Policy and procedures against forced labor.
- Policy and procedures against child labor.
- Employee reporting mechanism for human right incidents.

Partnerships and Donations

With an increased sense of offering, social prosperity and solidarity, the Grecootel Meli Palace makes donations for charities aiming to provide support for socially vulnerable groups and activities related to the promotion of culture, the environment and sports. Some of the results of our contributions are donations to "Vision of Hope" for its Bone Marrow Donor Bank, provision of goods to parishes and many other actions.

PARTNER WITH "THE SMILE OF THE CHILD"

As its main objective, the Organisation deals with the daily problems children encounter. The Organisation's main concern is defending children's rights, not just on paper but in practice as well, providing services to children on a 24-hour, 7 days a week, 365 days a year-basis, working for their physical, mental, and psychological stability.

PARTNER WITH "VISION OF HOPE ASSOCIATION"

It was founded in 2012 and is another link in the supply chain of medical, mental and social care of the Association of Friends of Children with Cancer "ELPIDA". Main purposes of the Association is the information and sensitization of the Public Opinion on the issue of voluntary donation of hematopoietic cells and the importance of their offer to a patient in need of transplantation.

NIKOS DASKALANTONAKIS FOUNDATION

The newly established body “Nikos Daskalantonakis-NDF” was created in order to further systematize our contribution to education, culture and quality production. With due respect for the tradition, the cultural heritage and the local character of each place, the organization grants scholarships and supports cultural projects and actions, such as the excavation and support of the Museum of Ancient Eleftherna and the maintenance and restoration of the Rethymnon Conservatory (Neratze Mosque).

Economic Dimension

Economic dimension refers to the way in which the company organizes its position in the marketplace to actively develop its sustainable profile by using its economic stability and profitability for continuous improvement. Our long-standing commitment to responsible business helps to create opportunities for all the interested parties, including our associates, guests, hotel owners and local communities. We continue to drive meaningful results benefitting youth, global diversity and inclusion, health and wellness, responsible sourcing and support for human rights.

Take Action **With Us**

TOGETHER FOR A GREEN WORLD

No act of kindness, no matter how small, is ever wasted.

During your holiday, **YOU may also help us make your vacation friendlier to our planet:**

- Try to consume energy responsibly and intelligently (Think of the planet).
- Make sure to close the balcony door of your room when the air conditioning is working.
- Maintain your air conditioning unit's temperature 23°C (better system efficiency).
- Use water responsibly.
- Inform us in case of water leakage.
- Reuse body, face, and beach towels.
- Reduce the use of plastic as much as possible.
- Choose to recycle.
- Keep the beach clean.
- Protect animals and their ecosystems.
- Respect and protect the cultural heritage of the local area.

Travel and lodging have the potential to transform our lives into something better. However, travelling results to environmental, social, and economic impacts. All of us at Greotel Casa Marron are committed to reducing this impact as much as possible, but as we cannot do it alone, we would like to ask for your contribution in this challenging task.

The Greotel Environmental Days are held to celebrate nature's conservation and to inform visitors. A range of exciting eco-activities are organized both within and outside of the Group's hotels, through an extensive program aiming to raise awareness among our guests and educate through plenty of original ideas and participation in innovative research projects.

**Sustainability is not a goal to be reached
but a way of thinking, a way of being,
a principle we must be guided by.**
